

# Population in Perspective

## How Will 7 Billion People Change Your Life?

In 2011, *National Geographic* magazine marked the world's seven-billionth person with a year long focus on population issues. How will our lives be affected and how can Americans engage with solutions to the challenge of sustaining a planet as the number climbs to 9 billion by 2050? Join our discussion featuring:

- **Dennis Dimick**, Environment Editor for *National Geographic*
- **Josephine Marcotty**, environmental reporter for the *Star Tribune*
- **David Lynch**, social science chair at Saint Mary's University
- **Fred de Sam Lazaro**, correspondent for PBS NewsHour, and director of the Under-Told Stories Project at Saint Mary's University

**Wednesday, March 14, 2012**

**7:00 — 8:30 p.m.**

**Page Theater, Saint Mary's University**

700 Terrace Heights, Winona MN 55987
