## Day One

Warm Up Title: Protest	
What do you know?	What do you wonder?
Who: Who will protect people from violence. What: What is the meaning of all of this. When: When will there be peace. Where: Where does this stuff take place. Why: Why is their always violence in something.	Why do people use violence to get what they want?
What doesn't make sense to you?	What is the message here?
Why the police officers will spray people with water and pepper spray.	The message is how everything looks the same and people doing the same thing.

## Day One

## Warm Up Title: A Hundred Years of Protests

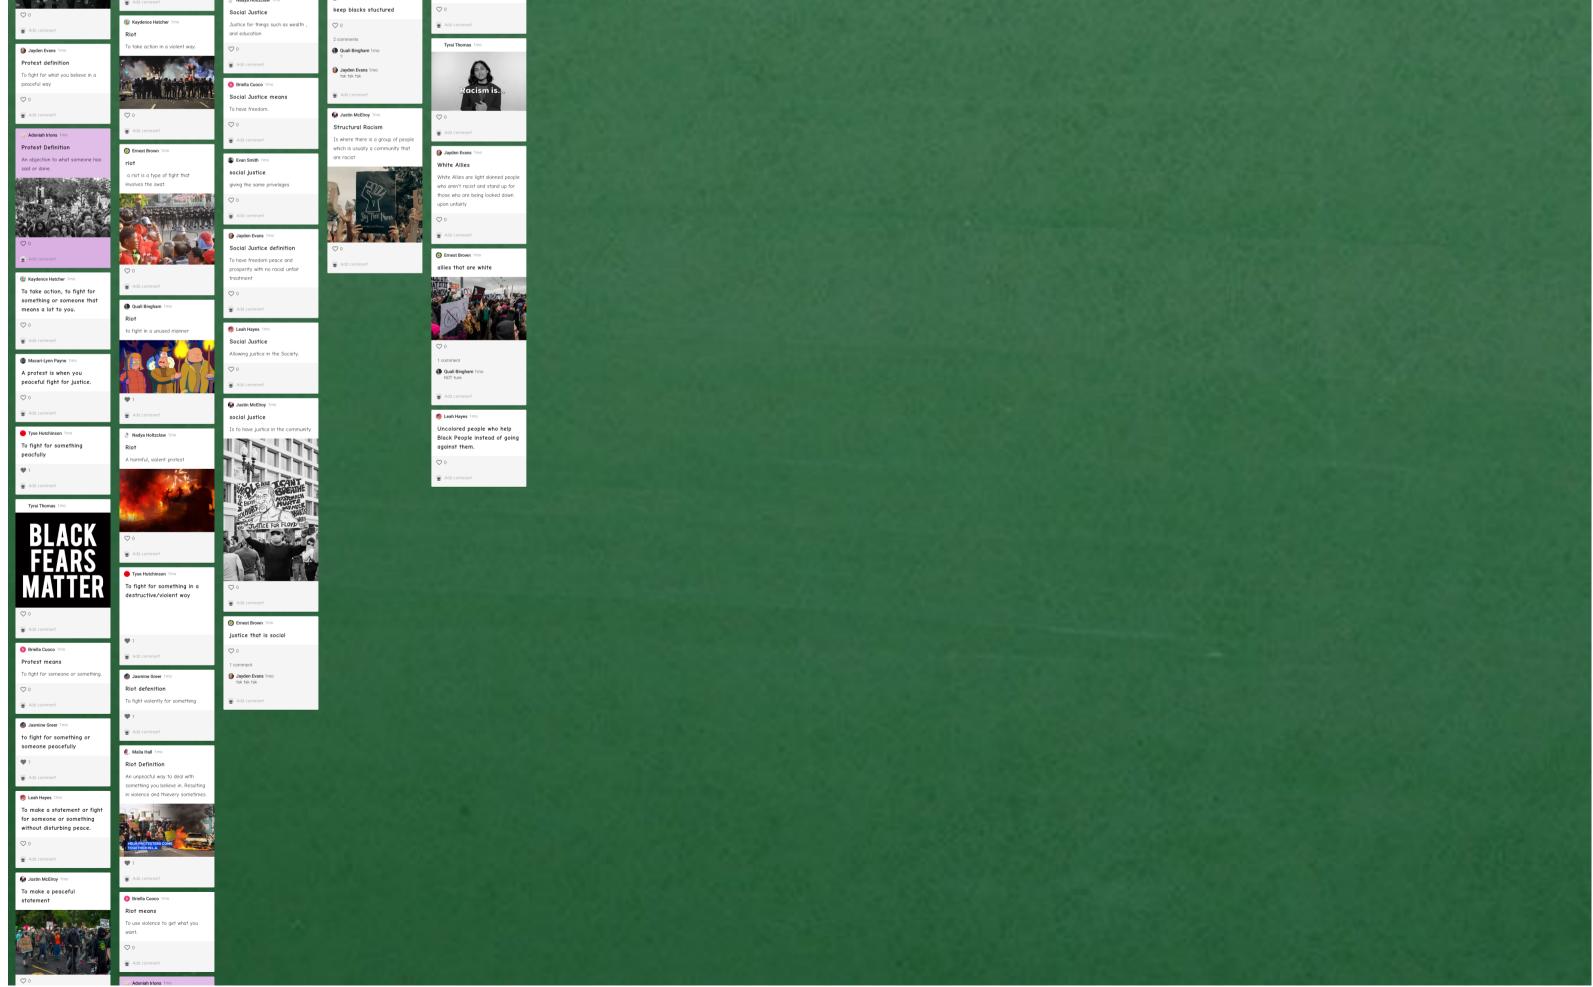

What do you know?	What do you wonder?
Who: Colin Kaepernick What: That the people were protesting for their rights When: The 1900s - 2020s Where: A lot of places in the world, In the video it was mostly the USA Why: Because people thought that something was wrong and they wanted to stand up to the cause	I wonder if the world will ever change.
What doesn't make sense to you?	What is the message here?
The fact that they may never like me. Not because of how I behave but what I look like. It doesn't make sense for me to be paranoid and worried about my life everyday while others don't have to worry about race. Because deep down I'm scared. I don't want my life to be in peril because of someone who doesn't like me. Because of my skin.	That people are protesting for some of the same reasons they were decades ago. And that if we protest some things may change.

D.  $\sim$ 

Day One						
Warm Up Title: A Hundred Years of American Protests						
What do you know?	What do you wonder?					
Who: African Americans + LGBTQ community What: Homophobia and Racism When: A hundred years Where: America Why: Some people think if you're not exactly like them, they shouldn't treat you equally.	I wonder why some people feel the need to treat others differently, mostly police officers. It's not fair to the African Americans and the LGBTQ community. Everyone deserves to be treated equally no matter what their race or sexuality is.					
What doesn't make sense to you?	What is the message here?					
What doesn't make sense to me is why people treat others differently because of their race and sexaulity.	The message here is history repeating itself for over a hundred years.					
Day Two						
Warm Up Title: Schools & Social Inequality						
What do you know?	What do you wonder?					
Who: Schools What: School funds + education systems When: Now Where: America Why: Parents have to pay for their child's education.	I wonder why some schools show inequality. In the video, the lady gave an example of schools showing inequality. She said black kids get suspended for more days for a little situation than a white kid getting suspended for a big situation.					
What doesn't make sense to you?	What is the message here?					

What doesn't make sense to me is why parents have to pay school funds. We don't know if parents can afford school funds, and kids NEED their education. Also, what if kids don't have access to books or computers? You shouldn't be able to grade them off of that.	The message here is schools showing social inequality and their unfairness to students and parents.

## WHAT ADDITIONAL GROUND RULES SHOULD WE SET TO ENABLE YOU TO PARTICIPATE SAFELY IN CLASS DISCUSSIONS ABOUT DIFFICULT TOPICS?

No racist ideas	No means No	You dont always have to share	You give respect You get respect	Keep the conversation to a conversation everybody will accept	Do not talk when it isnt your turn	Be You	you are not the main character- a nanny mouse	stay positive and be nice
Keeping the conversation on tracks and kid friendly. (For students our age) - Malia	Being respectful- Adoniah	No Bullying	Being open to any answer possible	don't say something that you know someone will feel a type of way- a nanny mouse	Keeping the conversation kid-friendly Malia	Show empathy - Sydnie	be respectful- Macari	Be nice to each other
Don't be mean to somebody because they got a question wrong or don't understandNadya	Be caring and understanding when a classmate gets something incorrect.	Staying ON TOPIC -Evan	do not fight	Be Respectful and stick to the topic Quali-	Be mindful about your friends, stay kind, and be respectful- Kaydence	Think of similar problems you have had, let them know they're not alone - Sydnie	Be aware of what you say so you don't offend anyone-Jayden	Smiling and nice- Adoniah
If someone wants you to stop just stop	Mindfulness and Compromise - Malia	be respectful when people are talking	Think about how this will effect others	thinking about others and how they will feel if you say somethingEvan	don't put in random answers or pictures like most of the time on the jamboard- Macari	Dont Bully someone for what they want to do	Raise your hand and wait to be called on.	Be Kind

## What Happened Exactly?

The water is now unsanitary and might have bacteria in it. Therefor it is unsafe to drink.

The Deli (I forgot the name) wasn't informed earlier and could have given people dirty and unsanitary water. -Nadya The 110-year old water pumping station on the South Side went offline which caused the water to be unsafe. It impacted the water from 8:30-9:30 am and there had to be testing to see

Please stop moving others notes and Texts only move yours Its annoying and you only waste time by doing that

places near morgan park and roseland were affected by a boiling order because the water pumping station went offline -Jael Green

How it affected others

People were probaly not getting enough water for there homes People in Morgan park who ignored the warning probably got sick with the contaminated water If you boil water it gets hot and then you need to wait for it to cool off and people who have short breaks may need water but not be able to access it because it needs to cool

They were not able to water there plants grass they were not able to wash dishes they were not able to cook and boil noodles

People got effected in the area because they cant wash their face or drink water

People in Morgan couldve got sick

They got effected because some meals like noodles needed water but when the water got shut down some people got hungry

We are unsure, but we believe this has happened or almost happened before. The boil order issued for thousands of Southwest side residents because of a century-old pumping

> **Boil Water** advisories usually include advice such as using bottled or boiled water for drinking and preparing food.

Boil Order Facts

Has this happened before?

When boiled water is not available, people are advised to bring water to a full rolling boil for 1 minute. After boiling allow the water to cool before using.

Brain-damaging, **DNA-changing**, lead found in tap water from most Illinois communities during the past 6 years, **Tribune analysis** finds

The pumping plant is located in **Roseland**, IL.

# How long

The boil order lasted about 24 to 48 hours	The boil order wa located in Bever and Morgan Parl neighborhoods.
	A boil order is drinking water being contamin Water should be brought to a roi boil for at least minutes in orde ensure safety.

nated. е iling five er to

## did it last?

Barrington, Elgin, Frankfort, Naperville, Wheaton, Aurora IL.

What is a filtration system? Water filtration is a general term that refers to any system or process that is used to filter out particles and pollutants from water.

The boil order was issued after a South Side pumping station located at 347 West 104th Street in Roseland went offline Thursday morning. The Filtration System is in Barrington, Elgin, Frankfort, Naperville, Wheaton, Aurora IL.

## Climate Change Project Doneby: Kaydence Lea, Jasmine, and Dori!

## Whter Information

## I nonation

Winter is the coldest season of the year in polar and temperate zones; it does not occur in most of the tropical zone It occurs after autumn and before spring in each year. Winter is caused by the axis of the Earth in that hemisphere being oriented away from the Sun.

## I nonation

How much are winter sports worth? Some social scientists have worked to calculate the benefits that downhill and cross-country skiing, snowboarding, snowmobiling, snowshoeing, and deliver to the American economy. At issue are not only the immediate economic contributions of lift passes or equipment purchases, but the money that Americans spend on everything dsethey consume when they go out into the cdd, from rental cars and hotel rooms to meals in restaurants.

## I nonation

America's cold-weather recreation sector has a particularly big stake in warming winters. Activities from downhill skiing to ice fishing and outdoor ice hockey all rely on low temperatures, ample snowfall, or both. Every year, winter recreation contributes billions of ddlars to the United States' economy. Winter sports also represent an important part of the country's cultural heritage. Climate change is putting those benefits in danger.

These environmental changes cause many trees and spring wildflowers to bloom earlier than typical. As a result, winters are shorter, spring is earlier, summers are longer and fall arrives later. The US EPA uses leaf and bloom dates reflecting national phenology trends to indicate climate change.

## Spring Information

## Summer Information

A hotter and longer summer will suffer more frequent and intensified hightemperature events — heatwaves and wildfires. Zhu said. Additionally, warmer, shorter winters may cause instability that leads to cold surges and winter storms, much like the recent snowstorms in Texas and I srael.

## Autum Information

Climate change in autumn shifts times of leaf fall, bird migration, and other events. These shifts change carbon dynamics and can favor invasive species. Autumn remains a neglected season in dimate change research in temperate and arctic.
