## Stop Bullying

### Purpose Statement

We want to conduct this survey because we want people to stop bullying.

I hope students will support it to stop bullying because it make any student don't go to school because they scared and don't wanna get hurt.

I want to share the results of our survey to our teachers because they can help us.

## Cafeteria Food

We would be using a survey mechanism directed at the student population of Richards Middle School where we will aim to address 50 students per grade. This will help us to have a clearer view of the levels of satisfaction with the school feeding program in said study house.

### Purpose

- To know student's opinion about the cafeteria food
- To know if the student's like the cafeteria food
- To make the students like the cafeteria food a lot
