My brothers name and age.

My brothers name is Jamarion Washington and his age is 14. And he has been going threw alot. He has gotten taller then my mom and he is growing a mustache and he looks so funny.

Jamarion interest in things and why.

Jamarion's interest is playing video games. He likes playing video games because he gets to talk to his friends and he also gets to play his vr head set with his friends. It's like virtual reality and sometimes we play together.it is very very fun.

What Jamarion used to be interested in.

Jamarion used to be interested in drawing and it was so good I loved it but he stopped and started to play video games so he became a gamer. At first he was really bad but now he is like not bad he like super good .

Jamarion's Dread Locks.

Jamarion wanted dread locks so he got them. Our mom changed his routine and now he has to wash his hair in the shower every 2 or 3 weeks. It's been very easy for my brother but right now they look very like tangled, stuck in the hair that is growing out of his dread locks.
