

Science + Climate Connection

What evidence from today's lesson shows that climate change affects worker health?

How does extreme heat affect the human body based on what you learned today?

What scientific term from today (ex: heat stress, exposure) is still unclear to you?

Which part of the article or video best connected science to real-world experiences?

Gig Economy + Worker Vulnerability

What is one reason gig workers have fewer protections in extreme heat?

What question do you still have about the gig economy or workers' rights?

Describe one unsafe or unfair condition highlighted today.

Who is responsible for protecting gig delivery workers?

Local Relevance (Merrimack Valley)

Where in the Merrimack Valley do delivery workers face the most heat risk?

What change could our town make to protect workers?

What did you learn that connects to your own experience?

How might extreme heat get worse locally?

Journalism + Evidence Use

What piece of evidence from the Pulitzer Center story was most powerful?

What question would you ask the journalist?

How did visuals/data help you understand the issue?

What evidence would you use in an op-ed?

Op-Ed Writing Prep

What claim are you thinking about for your op-ed?

Who needs to hear your message most?

Write one possible opening sentence.

List one solution and one remaining question.
