

What does "identity" mean to you? Add pictures and words to share your ideas. discuss them!

I think identify is who you are and what you are, nobody will be able to be the same as you because that is what identifies us our originality.

unique

identity to me means everything that i am

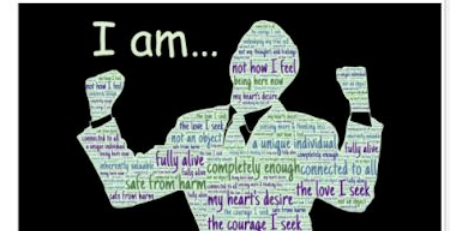

niña, estudiante, hija, amiga, inteligente, amable

Identity means...

What he looks like is part of his identity. You can't see his face, so part of his identity is hidden.

The negatives of the pandemic (Can you find any?)

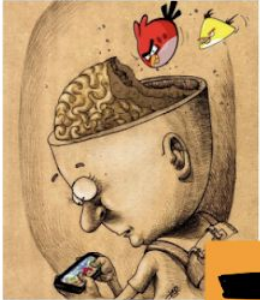

You can't see your friends for a long time. - Valentina

You get stressed without getting out of house sometimes.

you can't go out without a mask and sometimes you forget it.

The pandemic made our houses like a prison.

[Redacted]

We have the perception that we can be more productive, get more things done, without having to go anywhere! - [Redacted]

We cannot travel like we used to.

The positives of the pandemic (Can you find any?)

You're closer to your family - [redacted]

you dont have to wake up early.
[redacted]

Your house is clean because your mom makes you clean up. [redacted]

You spend more time with your pet.
[redacted]

I can draw more pictures now than ever.
[redacted]

You wake up late.
[redacted]

If after this pandemic we are not better then we have not learned anything about life.

I can support two schools in the same day and I don't have to walk across campus to get to classes! - [redacted]
[redacted]

more time to work on you

We have the perception that we can be more productive, get more things done, without having to go anywhere! - Ms. Gilliam

The pandemic made us spent all our time with our family.
[redacted]

Remembering COVID-19

What are the different people doing to remember this time?

Uwakwe

Anonymous 1mo

He is taking a picture and creat paintings to remember this time.

Anonymous 1mo

Uwakwe

He's trying to capture the pandemic into photographs and art, and this is what artist in different pandemics have done. There are pictures and paintings of people in the last pandemics, in which they express their fear about death.

Museums

Anonymous 1mo

He said the museum plans to show the reasons for the imbalance and show what can be done.

Anonymous 1mo

Anonymous 1mo

Zofia Oles

Anonymous 1mo

She was taking a pictures to remember this time.

Anonymous 1mo

She was taking pictures to remember her senior year.

Heather Voelz

Anonymous 1mo

she submitted a photo to the Illiniois state museum of her kids on Easter but she said that most of what she is recording are things that wouldn't mean much to anyone but them.

Why is it important to remember this time of COVID-19?

It is important to remember no just for death or illness: it has brought difficult times if we talk about economy, jobs, and support for each other. We have seen all kind of stories told by different people all over the world. And I think that that's what the article is about: everyone has a history.

Anonymous 1mo

Because we have phones and everyone can do photoes. We need to photo and save this hard

Photo Essays of the Pandemic_Period 1

Each group will browse a photo essay and share with the whole group

1. Behind the Veils and the Breathing Mask

What I notice is that in all the descriptions is that economically people are badly what makes them have to be exposed to the coronavirus as the first description, the woman lives alone and what she earns is not enough for her food.

I think that the purpose of the photo is to show us how hard are the life of the other people around the world, where the poverty rules and the injustice for the women too.

2. Walking on a Blade

I notice that some people don't have mask on the face and they don't keep their distance.

People just do that they want because the government cannot help citizens due to lack of funds. Some who feel good seat at home and wait.

Connections between people or countris or me with this I bad understant but I know that they need help.

The goal is to show how hard it is in Iran right now that some people don't try to protect themselves or they can't do it or they don't know how to do it.

3. Fear, Death, and Hope

Peopel are working wearing mask and the pictures purpose is to becareful and take care of your self and your family.

i noticed that all this pictures have something in common. in this countries like Iran there is a lot of poverty and the covid-19 affect this people the most since the government doesn't help them to survive . they have to risk their life exposing themselves to the covid-19 to earn money , they have no option because the poverty and unemployment kills people faster
