### Objectives & Outcomes

**Week 1: Introduction to Research Project (Whole Class)**

- Define the central idea of “The Idea of America” and articulate the purpose of the unit
- Review and complete *The 1619 Project* intro lessons on four topics:
  - Healthcare
  - Labor
  - Music
  - Infrastructure

- Generate student interest in key areas of Chicago life and culture (Healthcare, Labor, Music & Infrastructure). Students will then choose ONE topic from the four to conduct further research on.
### Week 2: Research Week

- Students review curated research in small groups and create timelines and engage in historical thinking about their research.
- Students write a thesis statement that answers the final essay prompt: How has the legacy of slavery impacted one of the chosen topics (Healthcare, Labor, Music & Infrastructure) for Chicago & Chicagoans?

### Week 3: Writing & Presentation Week

- Students will synthesize their learning over the past two weeks and draft an essay. Students will explore each of the four focus topics in a socratic seminar, using their expertise on their chosen subject to lead class discussions.

### Unit Resources

- “Analyze and Discuss: The 1619 Project Video Introduction,” Pulitzer Center Education
- *The 1619 Project of the New York Times Magazine, Media Storm*
- “Exploring the ‘Idea of America’ by Nikole Hannah-Jones,” Pulitzer Center Education
- “The Idea of America” by Nikole Hannah-Jones
- “A Broken Health Care System” by Jeneen Interlandi
**The Legacy of Slavery in Chicago and Beyond**
Unit by KIPP Chicago, part of the 2021 cohort of *The 1619 Project* Education Network

---

**Performance Task**

Students will write an essay (approximately 400-500 words), explaining how the legacy of slavery can be seen in Chicago. Students will focus their research on the following areas of inquiry with a focus on the Chicago community: labor/employment, infrastructure, healthcare, and music.

*Note: This is a DBQ (Document Based Question). This can stay a DBQ for 7th and 8th grade, but be expanded to a research task for high school students.*

**WEEK 1:** Students will complete four introductory lessons. The lessons will help students understand the impact that slavery and racism have in Chicago for each topic of research. *The 1619 Project* excerpts will provide students with critical background knowledge about the origin of racist practices seen in Chicago’s
The Legacy of Slavery in Chicago and Beyond
Unit by KIPP Chicago, part of the 2021 cohort of The 1619 Project Education Network

Community. After completing all lessons, students will decide which topic they would like to further investigate through reflection and connection questions.

WEEK 2: Students will continue their research by completing one of four research packets. Each packet will include 6 to 8 documents about one of the four topics. Students will read each document and analyze how the legacy of slavery influenced the development of Chicago’s community. Students will closely examine each document, identifying details, patterns, and practices in Chicago that connect directly or indirectly to the practices of slave ownership, labor, treatment, and culture. Finally, students will use their analysis notes from the packet to respond to the research prompt. Students will provide evidence from the given text to support their thesis and response.

Assessment/Evaluation
1619 Group Project
After students pick the topic that they want to research, students break up into groups to complete the DBQ packets, write a short essay, and craft a PowerPoint to present to the class. Individual students will submit a paper based on their research which will be graded using the KIPP writing rubric.

| Peer Review Sheet [.pdf] [.docx]  
Peer Editing Sentence Starters Anchor Chart [.pdf] [.docx] |
2. Model: Begin by modeling the peer revision process using one paragraph from the teacher's exemplar essay.
   - Make sure to revise the teacher essay to include common errors in word choice, use of details, organization, sentence length, topic, grammar, and punctuation in preparation for this activity.
   - Write feedback about the paragraph on a Peer Review Sheet. Use provided sentence starters during the teacher model.

3. Peer Review: With assigned partners, have students read their teammates essays, then provide at least three pieces of feedback per category.
   - Students should write their feedback on their peer review sheet.
   - Corrections for grammar, spelling, and punctuation should be written directly on the teammate’s document.
### Days 2-3

<td>(75 minutes each)</td>
<td>Revise and Publish</td>
<td>Students will be able to revise an essay based on peer feedback for appropriate word choice, use of details, organization, sentence length, topic, grammar, and punctuation.</td>
</tr>
</tbody>
</table>
| **Day 2 Objective:** | Day 3 Objective: Students will be able to publish an essay with appropriate word choice, use of details, organization, sentence length, topic, grammar, and punctuation. | 1. **Model:** Use the Peer Review Sheet from the teacher model, along with the teacher exemplar essay to model revising the teacher draft paragraph.  
2. **Revise:** Students should revise their drafts.  
   a. Review the comments from peers yesterday on the Peer Review Sheet.  
   b. Students rewrite their essays based on the feedback they received.  
3. If time permits, have students complete two rounds of peer review before beginning to type their essays. Students should type their final draft and do an independent read for any noticeable errors. |

### Day 4

| Day 4 | Objectives: Students will be able to prepare initial responses to the questions: How does the legacy of Slavery impact (labor/music/healthcare/infrastructure) in Chicago? How do you believe it’s impacted you and/or your community? | 1. **Warm Up:** Explain to students that today they’ll be engaged in an academic discussion. Ask students the following questions:  
   a. Why are conversations important?  
   b. In what ways do having discussion skills impact you and your life?  
   c. What should an academic discussion feel like? |

[Peer Review Sheet [.pdf] [.docx]](#)  
[Peer Editing Sentence Starters Anchor Chart [.pdf] [.docx]](#)  
[Seminar Prep Worksheet [.pdf] [.docx]](#)
### Students will be able to draft questions for your peers about the topics you did not research and study.

| d. | What words would you use to describe it? |
|    | e. Debrief student responses, guiding as needed |

#### 2. Introduction to the Seminar:
Explain that today, they will prepare for a socratic seminar, a type of academic discussion. Explain that this is an exciting way for us to share and build our knowledge of the topic of this unit.

- a. Define a socratic seminar and ask students to restate what it is in their own words.
- b. Emphasize that this is a student led activity, and that as a teacher you’ll only jump in when needed.
- c. Ask students what they are most excited and most nervous for thus far.

#### 3. Norms & Commitments: Establish some norms and expectations with students.

- a. Return to the question from the warm up.
  
  ➜ What do we want our discussion to feel like?
Now how do we all need to act in order to make sure our seminar feels like that?

b. Ask students to brainstorm expectations. Narrow the expectations to 3 or 4 key actions. Some expectations to consider encouraging may be:
   - Be prepared and engaged
   - Be respectful and don’t interrupt
   - Listen supportively

4. Initial Responses: Explain that the topic of our seminar will drive our presentations. This way we will be able to share our thoughts and learning with our peers.
   a. Pose the following two questions:
      - How does the legacy of Slavery impact (labor/music/healthcare/infrastructure) in Chicago?
      - How do you believe it’s impacted you and/or your community?
|   |   | b. Remind students to use their previous work in research/DBQ packets and their essays to help them answer the first question.  
   |   | c. Prompt them to think about what they'd want to explain to someone who has not learned about this topic.  
   |   | *Educator note: The second question should take the bulk of this time. Students should reflect on their own identities and lived experience. Teachers should circulate and help to guide and give feedback as students respond.*  
   | 5. | Draft Questions: Develop questions on the four issue areas for the Socratic seminar.  
   |   | a. Remind students of the intro topics and the thesis of each of the 1619 essays articles.  
   |   | b. Prompt them to think of 5-7 questions for someone who has spent their time learning about each of the other three questions. Each student should have a total of 15 questions, 5 for each of the topics they didn’t study. |
### Day 5

**Objective:**
Students will be able to present their thesis and learn about other topics in the unit through discussion.

**Warm Up:**
- List the behavioral expectations, values, or norms students created yesterday. Ask students to explain which is more important to them and why.
- Pass back questions with feedback from yesterday.

**Seminar Rounds 1-4:**
1. Beginning with a topic of your/students choice, arrange the desks or seats in a fishbowl shape.
   - The students who studied the topic should sit in the middle.
   - Other students should be sitting on the outside.
2. Students should state their thesis and their information for question one.
3. The outer circle of students should ask their questions as student “experts” respond.
