

My Action Plan

1. Based on your investigations and the data you gathered in the last phase, what is one idea you have about what might work to solve the problem or issue?

2. What are some possible ways you could **INFORM OR CREATE AWARENESS** about your idea?

3. What are some possible ways you could **JOIN, INVITE, OR ORGANIZE OTHERS** about your idea?

4. What are some possible ways you could **IMPACT SYSTEMS & POLICIES** about your idea?

5. Read over boxes 2,3, and 4. Choose one action that you would most like to take to help solve the problem. Write that action in the box below.

SOURCE: modified from *Designing Service Learning Projects with the Inquiry to Action Framework*, created by Alejandra Frausto, Project Based Learning Manager for Chicago Public School's Department of Social Science and Civic Engagement.

6. Before you take action, evaluate your possible action by considering if it is clear and specific, actionable and measurable through the prompts in the table below:

Your possible action	Clear and specific <ul style="list-style-type: none"> • What is the desired outcome? • How does this action help you to achieve that outcome? 	Actionable <ul style="list-style-type: none"> • What steps and actions would you need to take to implement your solution? • In what ways does this solution allow you to join and further the efforts of others? 	Measurable <ul style="list-style-type: none"> • How will you know your action is successful? • What can success look like within your time constraint?

7. Use the evaluations completed above as evidence to explain which action you are going to take and why.
