In a “morally just” (good) society, how much money should the city government provide for different services? Your budget is \$90 billion (90,000,000,000).

Example: Dividing everything equally will give 16.7% which is \$15 billion (15,000,000,000)

Different Options

1. **Debt Service (Paying off money that the city government borrowed a long time ago)**
2. **Education (Pre K-12, College)**
3. **Pension (retirement money for people who have worked for a long time)**
4. **Police Services**
5. **Social Services (Health care, job training, housing opportunities, and etc.)**

Understanding “digital zine”

- Zines started off as independently “mini magazines” that was a safe space for people to creatively share their thoughts.
- Zines are accessible to people, especially those who may face systemic barriers to traditional writing/art/journalism opportunities
 - Examples: BIPOC (Black, Indigenous, and People of Color), those with limited financial means, women, and LGBTQ+ individuals.
- Instagram is now increasingly being used for news, activism, and creative and informative purposes.

**Small group evaluations of different zine examples
(What do you like about them? What do you
dislike about them? What is missing?)**

Example: So you want
to talk about cops in
schools?

By "So you want to talk
about" Instagram
(October 20, 2020)

Example: What's
happening in Lebanon &
What you can do to help

By "Chnge" Instagram
(August
4th, 2020)

Example: The
Importance of Socially
Responsible Cocoa
Production

By "The Slow Factory"
Instagram (September
29th, 2020)

Your final project: Creating a digital zine that combines art & journalism about police budgets.

- Use visual images and quotes to enhance the meaning and argument

Purpose: To share online as a way to educate others
